(2) Supervise the execution of pertinent laws relating to Junior ROTC.

b. The Chief of Staff, U.S. Army (CSA) exercises supervision and control over Junior ROTC.

c. The Deputy Chief of Staff for Personnel (DCSPER) has general staff responsibility for plans, policies, and programs of the Junior ROTC.

d. The Commanding General, U.S. Army Military Personnel Center, 200 Stovall Street, Alexandria, VA 22332, is responsible for administering the Army Junior ROTC/NDCC programs and announcing policy changes.

e. The Commanding General, U.S. Army Training and Doctrine Command (CG, TRADOC), through CG, U.S. Army Cadet Command (CG, USACC), has managerial and operational responsibilities, except those retained by Headquarters, Department of the Army (HQDA), for the Junior ROTC Program. He or she will supervise the development and publication of textbooks for Junior ROTC instruction.

f. The Commanding General, USACC, will administer and evaluate the Junior ROTC programs.

g. The Commanding General, U.S. Army, Europe and Seventh Army (CG, CINUSAREUR); Commanding General, Eighth Army (CG, EUSA); and U.S. Army Japan/Ninth Theater Army Area Command are responsible for the Junior ROTC activities in the schools located within their respective areas, as prescribed in this regulation.

h. Participating schools within the United States and its territories and the Department of Defense Dependent School (DoDDS) authorities will conduct Junior ROTC programs as prescribed by this regulation. Instructors’ responsibilities are in chapter 4.

1–5. Mission philosophy
Junior ROTC is a national program authorized by laws enacted by Congress and conducted by the Department of the Army in cooperation with educational institutions in response to needs expressed by the people of the United States.

a. Mission. The mission of the Junior ROTC is ‘To motivate young people to be better citizens.’

b. Purpose. The program works to instill in students in United States secondary educational institutions the values of citizenship, service to the community and the United States, personal responsibility, and a sense of accomplishment.

c. Objectives. The Army Junior ROTC objectives are to develop in each cadet-

(1) Appreciation of the ethical values and principles that underlie good citizenship which include integrity, acceptance of responsibility, and respect for constituted authority.

(2) Leadership potential with the ability to live and work cooperatively with others.

(3) Ability to think logically and to communicate effectively both orally and in writing.

(4) Appreciation of the importance of physical fitness in maintaining good health.

(5) Knowledge of the effects and dangers of substance abuse, ways to resist negative peer pressure, and how to support others in drug use avoidance.

(6) Mental management abilities such as goal setting, visualization, and positive self esteem.
(7) Familiarity with the history, purpose, and structure of the military services with emphasis on the accomplishments of the United States Army.

(8) Knowledge of educational and vocational opportunities and the development of the basic skills necessary to work effectively as a member of a military or civilian team.

(9) Understanding the importance of high school graduation to a successful future.

d. Role of the institutions.

(1) The success of the program depends upon schools that understand their responsibilities to the student, the community, and the nation. It is only this understanding on the part of the educational administrators that can provide a sound basis for the necessary cooperative effort between the school and the Army.

(2) Programs are established at institutions that agree to support the Junior ROTC Program of Instruction (POI) and meet the standards to host the program. From those that apply, CG, USACC, recommends the selection of institutions where the program is to be established and maintained. On this basis, schools participate in national programs, as provided by Federal law.

(3) Because of the essential contribution that they make to the Junior ROTC program, participating institutions are considered by the Department of the Army to be educational activities of special interest to the Armed Forces. Schools that continue to meet all statutory, regulatory, and contractual requirements will maintain this designation subject to the needs of the Army and fiscal constraints.

e. Character of programs.

(1) The Junior ROTC program is designed for physically fit citizens and nationals of the United States attending participating educational institutions. It provides meaningful leadership instruction of benefit to the student and of value to the nation. The program can provide unique educational opportunities for the young citizens through their participation in a federally sponsored course while pursuing a normal civilian education.

(2) Participants in the program are provided an opportunity to acquire relevant knowledge and to develop personally. Schools conducting a program will offer their students the challenge of intellectual inquiry under the direction of instructors who are experienced leaders. The program provides an atmosphere designed to develop the qualities of leadership. Through classroom and other instructional activities, the participants acquire the knowledge, self-discipline, patriotism, sense of responsibility, and respect for constituted authority that will better prepare them for the future. The program will enable cadets to better serve their country as leaders, citizens, and in the military service should they choose to enter it.

(3) Junior ROTC creates favorable attitudes and impressions toward the Services and toward careers in the Armed Forces. Junior ROTC cadets may qualify for an advanced placement in the Senior ROTC Program or in the Active or Reserve Components of the Armed Forces.

(4) Participation in Junior ROTC does not obligate the student to perform military or any other Federal service.

(5) The NDCC program differs from Junior ROTC in that -

(a) The school must provide NDCC instructors. Although these instructors are subject to Army approval, there is no cost-sharing arrangement as exists for Junior ROTC.

(b) Institutions or students in the NDCC program must provide uniforms at no cost to the Government.

Chapter 2
Unit Organization

2–1. General
Junior ROTC organization, drill, and administration will conform as nearly as practicable to that prescribed by
organizations of the Army.

2–2. Organization
The Junior ROTC is organized into units at public and private secondary educational institutions, as follows:

   a. Unit. The organized group of Junior ROTC cadets and authorized faculty at one secondary school constitutes a
      unit. Each unit must maintain an enrollment of at least 100 eligible cadets or 10 percent of the eligible students
      enrolled in the school. The cadets must meet requirements of chapter 5.

   b. Multiple unit. A group of five or more units of one Service in which the Junior ROTC Program is conducted
      concurrently. Each unit must satisfy the enrollment requirements in subparagraph a above. This form of organization
      and management may be established to improve program administration.

   c. Classification. Units are classified according to the type of school where each unit is located, as indicated below.
(1) **Class HS (High School).** Units located at public and private secondary educational institutions that—
   (a) Meet prescribed standards and criteria.
   (b) Provide a course of military instruction of not less than 3 academic years.
   (c) Limit membership in the unit to students, who, in the judgment of the instructional staff, maintain acceptable standards of academic achievement and conduct.
   (d) Make available for the Junior ROTC unit’s use adequate classrooms, administrative offices, office equipment, storage space, drill field, transportation, telecommunications, and required facilities in a fair and equitable manner in comparison with other departments of the institution (or other elements of the institution, if the institution does not have departments), and pay the costs of utilities and maintenance for these facilities.

(2) **Class MI (Military Institute).** Units located at military secondary educational institutions, including the secondary level of military junior colleges, which in addition to the requirements for HS units—
   (a) Require all enrolled students, who are otherwise eligible, to participate in the Junior ROTC program.
   (b) Organize their military students as a Corps of Cadets under constantly maintained military discipline.
   (c) Require all members of the Corps, including those members enrolled in the military training, to be habitually in uniform when on campus.

**d. Departmental status.** All Junior ROTC activities and functions at most schools are grouped together as an integral academic and administrative subdivision of the school or school system.

2–3. **Selection of schools to host Junior ROTC units**

   a. Statutory requirements and higher headquarters policies limit the total number of Junior ROTC units and dictate that new units be established in such a manner as to adhere to Public Law. Selection of institutions that may participate will be based upon applicable statutes and criteria as determined by the CG, USACC, which must include, but is not limited by, the following selection criteria:
   
   (1) Receipt of signed applications and agreements.
   (2) Enrollment potential (ability to provide 100 cadets or 10 percent of student body enrollment).
   (3) Capability of the institution to conduct and support the program.
   (4) Accreditation status.
   (5) Ability to comply with statutory and contractual requirements and requirements of this regulation.
   (6) Fair and equitable distribution of units throughout the nation.
   (7) Willingness and ability to support requirements of a. above.

   b. The various administrative and budgetary aspects of the secondary school systems dictate that the selection process be conducted continuously. Accordingly, applications and reports of site surveys will be forwarded to HQ, USACC (ATCC–HS), as directed by the CG, USACC. The CG, USACC, will forward those applications recommended for selection to HQDA (ATTN: DAPE–MPO–D). DA Form 7410 (Evaluation Worksheet, Potential Army Junior ROTC Program) provides a guide for using selection criteria.

2–4. **Establishment procedures**

   a. A school that desires to establish a Junior ROTC unit must apply for participation in the program by completing DA Form 3126 (Application and Contract for Establishment of a Junior Reserve Officers’ Training Corps Unit) or DA Form 3126–1 (Application and Agreement for Establishment of a National Defense Cadet Corps Unit). School administrators must also agree to the conditions of the contract and those prescribed by this regulation. Forms may be obtained from the USACC Commanders. See appendixes B and C for sample application, contract, and agreement text.

   b. As part of the application process, a USACC representative will conduct a site survey.

   c. The original and four copies of the application and the accompanying site survey will be submitted through the designated representative of the area in which the school is located, to HQ, USACC. An application must be submitted for each institution in which school authorities desire to conduct Junior ROTC instruction.

   a. To support the Junior ROTC Program, the Army may—
      (1) Assign active duty, and/or authorize schools to employ retired, commissioned and noncommissioned officers to Junior ROTC schools as administrators and instructors. Their qualifications must be approved by the CG, USACC, and the schools concerned.
      (2) Limit employment of retired Armed Forces personnel as Junior ROTC instructors and administrators to those retired from the United States Army.
   b. The school will employ the number of officer (Senior Army Instructors (SAIs)) and noncommissioned officer (Army Instructor (AIs)) instructors required to conduct a successful Junior ROTC program. A minimum of one officer and one noncommissioned officer per school must be hired in all cases. Failure to do so, may cause termination of the program.
   c. Class HS units will be staffed as follows:
      (1) Any school qualifying for a Junior ROTC unit will employ at least one retired officer or retired warrant officer (with a Baccalaureate degree) and one retired noncommissioned officer or retired warrant officer. When necessary, the Commander, USACC, may authorize substitution of any officer by an enlisted instructor and vice versa.
      (2) Single units or subunits of multiple units staffing levels will be determined by the CG, USACC, using figure 2–4 as a guide.
         (a) For staffing purposes in block scheduling situations, the number of instructors will be based on the average of the actual enrollment for first semester and projected enrollment for the second semester. For example, if the average enrollment is less than 151, an additional instructor is not authorized.
(b) For staffing purposes in cross-enrolled situations, the number of students at the cross-enrolled school will not count towards the authorization of an additional instructor or for cost-sharing purposes.

(c) Cadets may not take classes at different LET levels simultaneously (that is, LET 1 first period and LET 2 third period). They can be enrolled in LET 1 and earn an additional Junior ROTC credit for participation in an activity such as a drill team should the school permit it. However, they may be counted only one time for enrollment purposes.

(d) The multiple unit management structure will be limited to the minimum essential personnel needed to plan and control a coordinated multiple school program (see fig 2–5).

(e) Multiple unit management structures are required to establish a central supply system. Staffing will include a Military Property Specialist (MPS) hired by the school system at no cost to the Government.

(f) Unit staff authorization levels will be determined by CG, USACC, based upon figures reflected in the unit annual Opening Enrollment Report. As a general operating principle, to avoid instability in the instructor force, neither staff increases nor decreases will be based upon the enrollment figures of a single year. Instead, consecutive years of enrollment at a level sufficient to warrant a change in staffing are required for staff increases or decreases.

d. Employment of additional retired members as instructors at no expense to the Government is authorized subject to Army certification. This is not to be construed as authority to conduct instruction offsite at locations other than at the host institution. Schools instituting the enrollment of cadets from outside their district must be aware that, based on budgetary constraints, additional instructors above their host institution’s staffing requirements may not be cost shared.

e. If employed Junior ROTC instructors experience temporary absences, such as for illness or injury, schools may provide substitute teachers not approved for hire by the Army for up to 30 days at no expense to the Government. Using substitutes for a greater period of time must be approved by CG, USACC, or his or her representative.

f. A retired member employed to conduct the Junior ROTC Program, who is senior in rank to an active duty member assigned to that unit, may be designated as the supervisor of that active duty member.

g. Active duty performance evaluation and rating schemes will be done according to applicable Army regulations.

h. Each active duty instructor will be given the opportunity to have at least 30 days leave per year.

i. With the approval of the CG, USACC, the Professor of Military Science at Military Junior College (MJC) schools may be assigned to conduct both the High School and College ROTC programs at the school and be designated as supervisor of the SAI. Personnel assigned as JROTC instructors, however, will be used only for that purpose and assigned duties will be directly related to the Junior ROTC Program.

Additional retired officers and NCOs may be authorized in cadet ratio of 500:1 for officers and 100:1 for NCOs.

Figure 2-4. Single Unit Staffing
2–9. Other establishment criteria

a. Secondary educational institutions desiring to establish Junior ROTC units or to continue established units will—

1. Provide positive safeguards to prevent discrimination against students or instructors on the grounds of sex, race, religion, or national origin.

2. Provide credit for the required courses of instruction and maintain the standards prescribed by the USACC.

3. Provide adequate facilities for classroom instruction and administrative office space; storage space for office equipment; a drill field; transportation; and telecommunications, as determined by USACC.

4. Provide suitable safeguards for Government property as prescribed in AR 190–11 and AR 710–2. Such safeguards shall include, but not be limited to—
   a. Employment of a Military Property Specialist to issue, account for, and maintain the Government property.
   b. Bond or insurance (or both) to cover loss and damage of Government property.
   c. Secure storage of U.S. military weapons and ammunition in the inventory of Junior ROTC units. Junior ROTC units that have received U.S. weapons or NDCC units that have purchased U.S. weapons (air rifles, demilitarized M1903s, M1s, and .22 caliber rifles) will secure them in accordance with AR 190–11 (standard racks and metal containers, that is, wall lockers). The .22 caliber rifle bolts and bolts from other operable weapons will be stored in secure separate containers. The establishment of security standards for arms and supply rooms will be emphasized.

2–10. Conditions for retention of programs

Each school must, on a continuing basis —

a. Meet and maintain statutory requirements.

b. Maintain the enrollment requirements (no less than 100 cadets or 10 percent of student body enrollment). The host units must maintain enrollment requirements in their own right irrespective of students at cross-enrolled schools.

c. Maintain the standards and criteria for establishment.

d. Comply with provisions of this and other pertinent Army regulations.

e. Support the program to a degree that will merit a rating of satisfactory on the Unit Evaluation Program.

2–11. Probation

Programs that do not meet prescribed standards will be considered for probation and/or disestablishment.

a. If minimum enrollment is not obtained and maintained during the school year, Headquarters, USACC, may place the unit on probation. After a unit has been on probation for one year, the Commander may continue the probation for another year or direct disestablishment of the unit. New units, however, will not be placed on probation at the end of their first year for enrollment deficiency.

b. In the case of a new unit that is unable to maintain the minimum requirements in its third year of operation, USACC will—

1. Provide information and guidance to aid the unit in maintaining the minimum enrollment.

2. Recommend the unit for probation and formally notify the senior official of the institution that failure to maintain the minimum required enrollment by the end of the probationary period may result in disestablishment of the unit.

c. A program which receives an unsatisfactory on the Unit Evaluation Program will be considered for probation.

d. Units receiving a second consecutive unsatisfactory evaluation will be placed on probation.

e. If a unit is placed on probation, USACC will—

*Figure 2-5. Multiple Unit Staffing*
(1) Promptly notify the senior school official of the probationary status. A copy of the letter will be provided to the DAI and SAI.

(2) Review the status of the unit during the next inspection.

f. A unit may not become an Honor Unit, Merit Unit, or Honor Unit with Distinction while on probation.

g. Any unit placed on probation for any reason twice during a 5-year period will be considered for disestablishment.

h. Units placed on probation may request removal after 2 years of compliance with the requirements for retention.

2–12. Disestablishment

a. Basis.

(1) School request. Senior school officials desiring to terminate participation by the institution in the Junior ROTC Program should notify the CG, USACC, in writing.

(2) For cause. Disestablishment of a unit for reasons other than a request by the school officials will be made only after careful and studied consideration. The CG, USACC, may recommend disestablishment of a unit based on the school’s failure to meet applicable standards in this regulation, Federal law, directives, or other regulations. When a unit does not meet the standards specified in this or other appropriate directives (other than for enrollment), school authorities concerned will be notified that the unit has been placed in a one-year probationary status. If the reason for probationary status has not been resolved at the end of the probationary period, CG, USACC, may grant a waiver of disestablishment if reasonable cause exists or he or she may recommend disestablishment.

(3) For failure to satisfy enrollment requirements. USACC will place on probation Junior ROTC units that are at the end of their third year of operation or beyond it but do not meet enrollment requirements. USACC will evaluate the unit’s potential to attain the minimum enrollment at the beginning of the next school year. If it is likely that the enrollment minimum will not be met or maintained, USACC will encourage school authorities to concur in immediate disestablishment of the unit. However, after any year of probation, USACC will determine if the enrollment minimum has been met and will recommend disestablishment for any unit that fails to meet enrollment by the end of the year of probation. In each case where disestablishment is authorized for not attaining minimum enrollment, USACC will notify the school not later than December to permit an orderly phasing out and to permit the student body to become aware of the action before the end of that school year. If it has not, the school will be notified of disestablishment and physical termination will be scheduled for no later than the end of that academic year.

(4) When disestablishment serves the best interests of the Service.

b. Methods. When notified by HQDA that a recommendation to terminate a Junior ROTC unit has been approved, the CG, USACC, will inform appropriate school authorities that the unit will be disestablished at the close of the current school year or at an earlier date if requested by school officials. (See AR 735-5 for funds and property accountability clearance.) All cadets will be disenrolled (or graduated, if appropriate) at that time and furnished military training certificates if they qualify.

c. Final action. The CG, USACC, will inform HQDA (DAPE–MPO–D), WASH DC 20310–5000, of the effective date Junior ROTC instruction was terminated and property returned to the Army. When this information is received, HQDA will announce the disestablishment of the unit in a DA General Order. The support installation Department of Defense Activity Address Code (DODACC) network station will delete the DODACC of the disestablished unit.

Chapter 3
Program Supervision, Costs, Support, and Results

Section I
Logistical Support

3–1. General

The logistical support necessary to maintain Junior ROTC programs will be provided as authorized by this regulation, AR 710–2, and other appropriate regulations.

3–2. Financial assistance

a. Each Junior ROTC program is supported by an installation and is allocated Operations and Maintenance Army (OMA) and Reserve Personnel Army (RPA) funds to provide for supplies and contractual services. Each installation will manage these funds by providing DAIs/SAIs with an operational ceiling. Subordinate commanders are to work with the DAI/SAIs to manage their programs within the funding available. Each support installation is required to conduct an Annual Command Supply Inspection of each account.
b. OMA funding supports, but is not limited to, retired instructor pay, procurement of training materials, and instructor travel. RPA appropriations pay for cadet uniforms and transportation, but or not limited to these expenses.

3–3. Equipment

a. Equipment will be provided to Junior ROTC units in accordance with AR 71–32 and appropriate implementing instructions. The Table of Distribution and Allowances (TDA) authorizes equipment. Equipment issued to units will be included in the TDA or other proper authorization document. Examples of such equipment may include, but are not limited to, the following:

1. Spare parts, tools, cleaning materials, technical publications, and other materials necessary for maintenance of the equipment.

2. Instructional materials, equipment, supplies, uniforms, and other items, as deemed necessary by USACC, to support and conduct the Junior ROTC Program.

3. Payment for equipment transportation charges, including packaging and handling, for shipment to and from the institution is incurred by the Government. The institution shall pay all other costs incident to maintenance, local storage, and safeguarding of the property.

b. USACC Commanders may direct the turn-in of clothing and equipment to the supporting installation when it is not needed permanently by the unit. TDA or other authorization document changes should be submitted to the HQ, USACC.

c. Schools may obtain equipment in addition to that authorized by TDA and other documents, including this regulation, through the Surplus Property Program which provides additional support for optional curriculum activities. Major items acquired through this program will not be maintained with appropriated funds authorized to support the Junior ROTC programs. Equipment authorized Junior ROTC units by a TDA, Common Table of Allowances (CTA), Army regulations, and other documents do not affect the allocation and procurement of Government surplus property by educational institutions. Refer to Defense Reutilization and Marketing Manual, DOD 4160–21M for additional guidance.

d. In accordance with Title 10, United States Code, Section 4651, the Secretary of the Army may provide arms, tentage, and equipment to NDCC units as budgetary considerations permit. However, equipment for NDCC units normally will be procured and maintained at no expense to the Government.

3–4. Transportation, subsistence, and billeting

Junior ROTC cadets are authorized transportation, subsistence, and billeting while attending summer camp and command sponsored marksmanship and drill competitions to the extent that the command budget permits (See chap 6, paras 6–12 and 6–13.) The CG, USACC, and appropriate overseas commanders are delegated authority under this regulation to approve or disapprove Government transportation (except military air), subsistence, and billeting.

a. Requests for military air will be processed at the Office of the Chief of Staff, Army Management Directorate, for referral to the Secretary of the Army. The following procedures must be followed:

1. Submit each request to USACC. USACC will in turn submit an endorsement through TRADOC and the Office of the Chief of Staff, Army Management Directorate, to the Office of the Secretary of the Army. These requests could easily take up to 6 months for approval or disapproval.

2. Provide documentation detailing what training will be supported and the reason military aircraft support is required.

3. Prior to submission, coordinate with the Operational Support Airlift Command to obtain a cost estimate. Submit the cost estimate with the request.

4. Follow reimbursement guidelines as appropriate. Any JROTC airlift support provided by Transportation Working Capital Fund (TWCF) aircraft will require reimbursement. If reimbursement is required to support the request, provide funds from the school to cover the cost. The reimbursement rate for military aircraft will be the DOD reimbursement rate per flying hour by the type aircraft supporting the request.

5. Requests that require the transfer of appropriated funds from USACC, to cover the cost of the military air transportation, are not likely to be approved.

b. Junior ROTC cadets or students in uniform may with the school’s approval—

1. Be provided a local flight (orientation flight) as members of an organized Junior ROTC activity. Prior parental consent will be obtained for each cadet.

2. Travel point-to-point within CONUS on DOD aircraft if approved by the Secretary of the Army under the provisions of DOD 4515.13–R.

c. Junior ROTC instructors may accompany Junior ROTC cadets or students on Government transportation and be billeted in Government quarters, as appropriate. Instructors will identify themselves by presenting DD Form 2 (Retired Identification Card).

d. Civilian officials of schools that offer Junior ROTC may be authorized Government transportation or billeting—

1. If such transportation or billeting supports normal Junior ROTC training, or
(2) To permit dignitaries to visit military installations for orientation in connection with Junior ROTC activities.

Section II
Donations

3–5. Donations of surplus property
This section contains policies and procedures concerning the donation of surplus property to schools designated as participants in the Service Education Activity (SEA) Donation Program conducted by individual States.

3–6. Designation
Because of the essential contribution they make to the Junior ROTC Program, participating schools that meet all criteria are considered by DA to be educational activities of special interest to the Armed Services and designated as a Service education activity (SEA). When so designated by DOD, and following execution of a donation agreement, a SEA may receive surplus property that is usable and necessary.

a. The CG, USACC, will initiate requests through DCSPER to DOD to designate eligible Junior ROTC schools and to end donation agreements with those not qualified. Schools must meet all Junior ROTC statutory, regulatory, and contractual requirements to receive and keep the designation as education activities of special interest.

b. Only individual schools will be designated. Donation agreements may be made with the school system or district. They will limit donation and use of surplus property only to those schools within the system or district that have been designated. A list of schools so designated will be appended to and become a part of the donation agreement. One individual may act as the donee representative for all eligible schools within a Junior ROTC multiple unit (system or district). The representatives may, however, request and receive donations for use only by those schools in the system (unit) designated by DOD as educational activities of special interest.

c. The list of Junior ROTC schools will be reviewed annually by USACC to determine eligibility for designation as a SEA of special interest.

3–7. Donation agreement

a. USACC will send a new donation agreement to each school when designated by DOD. To receive donations, the head of the school must countersign the agreement and return it to USACC. To help compile the list of activities eligible to receive donations, schools will be requested to return the agreements by a specified date. Pending publication of this list in DOD 4160.21–M, Defense Logistics Agency (DLA) will send the list of schools that have executed agreements to the military services and the General Services Administration (GSA).

b. Activities submitting executed agreements after the specified date may not receive donations of surplus property until listed. If still eligible, these activities will be included in the next change to the list. Schools will be removed from the list and will be notified of the end of the agreement by DLA when DOD withdraws designation as a SEA. Schools may end the donation agreement at any time by notifying USACC.

3–8. Screening

a. Property may be donated only after it has been determined to be surplus following proper screening for use. The donation of surplus property to an authorized donee is subordinate to any need for the property by a Federal agency, but takes precedence over its sale, destruction, or abandonment.

b. Surplus property will be made available for donation screening for 21 days after the date it is released for surplus disposal. SEA will have priority during the sixth through the tenth days. For the remainder of the days, requests will be processed on a first-come, first-serve basis. No priority will be given for requests for nonreportable property.

3–9. Donation procedures

a. DOD Defense Reutilization and Marketing Manual 4160.21–M lists the type of property that may be obtained under the new agreement. (App E lists items to be donated to Army and Marine Corps MI and MJC schools.) The amount of surplus personal property available for donation will be based on the size of the school’s enrollment in military training programs. This enrollment must be certified on each Standard Form (SF) 123 (Transfer Order—Surplus Personal Property) which is available through normal Army publications supply channels. (See DOD 4160.21–M for guidance on completing SF 123.) The form must be sent to the correct regional office of GSA to request property in all other listed groups.

b. Surplus property earmarked for donation to a SEA will be held pending necessary approvals for a maximum of 42 calendar days from the automatic release date. If the application for donation indicates that the property will be picked up, the applicant or the applicant’s agent will be notified in writing when the property is ready for release. Property held and not approved or removed within the specified time will be made available to other eligible applicants or processed for sale.
c. Care and handling costs, disposal of donated property, submission of reports, and other procedures will be governed by the terms of the donation agreement.

Chapter 4
Instructional Personnel

Section I
General

4–1. Purpose and scope
The success of the Junior ROTC Program depends upon qualified instructors. This chapter prescribes the policies that the Army will follow in determining the qualifications of instructors and in providing information to the school and to the instructors. The Army expects school authorities to use their own hiring procedures to employ instructors.

4–2. Authorized instructors
a. Only instructors authorized by this regulation and approved by CG, USACC, will conduct the Junior ROTC programs. They are subject to the provisions of this regulation and will be extended the rights and privileges of an instructor as prescribed herein.

b. Application by the individual or by the school for this approval will constitute a de facto agreement to the conditions prescribed in this regulation.

c. Continued association with the Junior ROTC Program is contingent upon the individual’s meeting conditions as set forth in this regulation and appropriate USACC guidance.

4–3. Equitable procedures
Military retirees employed as Junior ROTC instructors are members of the Armed Forces not on active duty. Title 10, United States Code, Section 2031 provides identical authority to the school and the Secretary of the Army, with delegated authority to the CG, USACC, to approve the qualifications of administrators and instructors in the program. This dual approval is required for initial and continued employment. The same essential qualifications will be used in approving retired instructors.

4–4. Relationship between instructors and schools
a. School.
   (1) Authorities will ensure that personnel assigned or employed as Junior ROTC instructors are used only for that purpose and assigned duties will be directly related to the Junior ROTC program. Upon request of the JROTC instructor, the school authorities will also ensure that instructors are provided evidence that the school is providing liability insurance through the school or school district while they are performing Junior ROTC activities or duties (including extra curricular activities such as summer camp, adventure training, drill competitions, marksmanship competitions, and similar activities, all of which must be school sponsored activities.

   (2) The school or school board is the employing agency of all Junior ROTC personnel. The DAI or SAI, as departmental heads (or equivalent), are responsible to school officials for the conduct of the program, and ensure that it meets school standards and Army requirements. Individuals employed by the school have individual responsibilities to the school as stipulated in their respective contracts.

   (3) The school authorities will advise the CG, USACC, of any change in the employment status of personnel employed as Junior ROTC instructors.

b. Individual, school, and Army. The school and the individual Junior ROTC instructor negotiate contractual matters between them. Although the Army is not a party to the employment contract, it will reimburse the school in accordance with paragraph 4–19. A copy of the contract will be furnished to USACC by the school authorities.

c. Individual and school. When an individual, employed as an instructor, performs services for a school that are not part of Junior ROTC instruction, they must be performed outside the scope of his or her Junior ROTC duties. If any additional sum is paid for the services, the Army will not reimburse the school for these services. Junior ROTC instructors will not be expected to perform unpaid additional duties beyond those performed by other teachers. Employment of personnel serving as Military Property Specialists required to issue, account for, and maintain Government property is a responsibility of the school. Instructors appointed to these positions act as agents of the school, and will be provided a minimum of one class period in addition to their normal planning period for associated duties.
Section II
Instructor Administration

4–5. Active duty instructors
Active duty soldiers assigned Junior ROTC duty remain subject to the Uniformed Code of Military Justice and all other applicable Army Regulations. They may be authorized to conduct academic courses at the school only with permission of USACC and at the specific request of the school. Non-Junior ROTC instructional duties normally will not be permitted during the instructor’s first year at the school. An individual may accomplish such academic instruction only at other-than-regular duty hours and when such instruction would not interfere with the full and effective performance of his or her Junior ROTC duties. The duty hours of a member of a Junior ROTC unit may not be adjusted solely to permit him or her to conduct non-Junior ROTC instruction.

4–6. Position vacancies and hiring
HQ, USACC, will:
   a. Maintain position vacancy information and provide it upon request to personnel certified for employment in Junior ROTC.
   b. Assist hiring actions by—
      (1) Identifying, upon school request, certified personnel who have indicated a desire for employment in the state in which the school is located.
      (2) Within capabilities, screen certified personnel and recommend those best qualified for a position.
   c. Verify, before approving employment, that an authorized and funded position is available if instructor salary costs are to be shared by the Army. Otherwise, verification will be limited to confirming that the individual selected for hire is certified for employment in Junior ROTC.
   d. Inform hiring officials that Army approval to hire is contingent upon receipt of a favorable background investigation on the individual. Such a check is not required for individuals who have had a favorable check within 5 years of the date of employment. Individuals with an unfavorable background check will be so advised, and certification and authorization for employment terminated, but derogatory information will not be cited.

4–7. Rank and precedence
Individuals, especially retired members employed to conduct Junior ROTC programs, are recognized as a group having a unique status; however, representatives of the CG, USACC, will ensure that the Army’s position on rank and precedence is explained to appropriate school authorities and retired members. A Junior ROTC multiple unit or single unit should be staffed according to rank and precedence situations normally found in active service. All authorized instructors will be accorded the courtesy commensurate with their rank and with the customs and traditions of the Service between members of different rank.

4–8. Instructor qualifications
Each Junior ROTC instructor applicant must—
   a. Possess the following attributes:
      (1) Be of good moral character and have the mental ability, positive attitude, physical appearance and condition, and neatness required for favorable representation of the program and the Army in the school and civilian community.
      (2) Have general knowledge of course subject matter and demonstrated instructional ability. Award of an instructor MOS designator is not sufficient to qualify automatically.
      (3) Demonstrate the professional ability to lead, motivate, and influence young men and women to learn and develop leadership, self-reliance and discipline, responsiveness to constituted authority, and attributes of good citizenship and patriotism.
      (4) Be a citizen of the United States of America without ties that would reasonably influence the instructor to act in favor of a foreign country or a person bound to a country having basic or critical interests opposed to those of the United States.
      (5) Have a military and civil record that reflects, through evaluation reports and public records, a high degree of efficiency and effectiveness, and conduct that is above reproach. Records must reflect an overall manner of performance that would compare favorably with contemporaries if on active duty.
      (6) Have no personal habits or character traits that are questionable from a security, stability, or social standpoint such as, but not limited to, financial irresponsibility, excessive drinking or gambling, drug use, or emotional instability.
      (7) Have no record of conviction by court martial, no record of time lost-to-be-made-good under Title 10, USC, Section 972 and no record of civil convictions except for minor traffic offenses. Exceptions may be granted by the CG, USACC, using AR 601–210 as a guide.
      (8) Have been discharged under honorable conditions from all previous enlistments and prior service, if any, prior to employment. This does not preclude applications from active duty personnel who are eligible for retirement or are within one year of retirement.
If enlisted, have a high school diploma or general equivalency degree equivalent.

If an officer, have a baccalaureate degree. If a warrant officer, have a baccalaureate degree to be eligible to serve as a Senior Army Instructor.

Be retired from active duty in the retired grade of E7 through O6. As a matter of policy, personnel retired under title 10, USC, chapter 1223 (Reserve Service), are not eligible for employment in Junior ROTC programs. The certification authority may grant an exception to the minimum grade.

Have a broad and varied record of active service assignments that will facilitate teaching the overall role of the military.

For personnel tested in aptitude area GT, have obtained a score of 100 or greater. HQ, USACC, may waive this requirement upon evidence of successful completion of college level academic course work.

Not have been retired from active duty more than 5 years at the time of initial employment. Eligibility may be extended to 6 years for individuals meeting the provisions of paragraph 4–9b.

Meet retention medical fitness standards of AR 40–501 and the initial Army procurement table of weight standards of AR 40–501. Personnel not meeting these standards, such as those retired for medical reasons (title 10, USC, section 1201), may be considered for approval should exceptional circumstances so warrant.

Possess a minimum of ’1’ in the ‘S’ factor of the physical profile and have no record of or demonstrate emotional instability as determined by observation, official report, or screening of health records.

Have no speech impediment that would detract substantially from the ability of the Junior ROTC instructor to conduct articulate easily understood instruction.

Have writing and verbal skills appropriate to satisfactory performance in an academic environment. A command of English is important to teaching young Americans life success skills.

Possess sufficient medical, physical, and mental fitness, and be willing to perform, participate in, and supervise activities consistent with the conduct of the Junior ROTC program. Activities include, but are not limited to—

(a) Platform and student-centered instruction
(b) Marksmanship training
(c) Conduct of drill and ceremonies
(d) Leadership training
(e) Water activities
(f) Climbing (stairs and ladder)
(g) Ability to lift and move materials up to 50 pounds in weight
(h) Physical training
(i) Summer camp up to 2 weeks
(j) Training and events outside of normal classroom hours and over weekends

Meet the requirements of paragraph 4–8a(1) through (19), have a minimum of 15 years of active service, and have attained the rank of Sergeant First Class.

4–9. Application and certification procedures

a. Each applicant will—

(1) Request certification information from HQ, USACC.
(2) Take any tests, physical examinations, and attend interviews required by the school or the Army at the individual’s expense.
(3) Negotiate any required contract with the school.

b. HQ USACC (Junior ROTC Directorate) will—

(1) Determine the applicant’s eligibility, suitability, and qualifications through satisfactory interview, physical examination, service record, review of certification packet, and other application materials specified by HQ, USACC.
(2) Inform applicants when they have been granted certification for employment in Junior ROTC.
(3) Inform applicants whose qualifications do not warrant approval that they do not meet the qualification requirements of Title 10, USC, Section 2031 and this regulation. Because Junior ROTC instructor certification is an action similar to a competitive selection board proceeding, reasons for failure to qualify may not be provided to the applicant. The needs of the Army are the overriding consideration. Applicants not selected may request reconsideration or submit additional information for review.
(4) Under certain conditions, grant interim certification to a person upon favorable review of an application that is administratively incomplete, if the person has been selected for hire by a school. Such certification will be for a limited period of time. Schools will be notified of the conditional nature of the certification and that it will be withdrawn if administrative requirements are not met in the time specified or if review of the completed application is unfavorable.
(5) Determine that the certification is valid from the date granted to the fifth anniversary of retirement while seeking an instructor position. Persons not employed in Junior ROTC by the second anniversary of their retirement lose eligibility for employment unless they provide a new DA-style photograph, proof of a current physical examination,
and other data as requested. For persons whose certification date would provide less than one year to secure initial employment before loss of eligibility, eligibility may be extended to the sixth anniversary of retirement.

(6) Former instructors, not employed in Junior ROTC for a period of 2 years or more, must submit a current photograph, proof of a current physical examination, and other data as requested. They must also attend an interview and present a letter of recommendation from their most recent employer.

c. School authorities will—

(1) Employ only applicants who have been certified to teach Junior ROTC by the Army.

(2) Inform HQ, USACC, of the name, grade, and social security number (SSN) of those applicants whose qualifications are approved by the school before starting employment.

4–10. Functions and responsibilities of Director of Army Instruction (DAI) and Senior Army Instructor (SAI)

In addition to other provisions of this regulation—

a. The DAI is the chief administrator of the Junior ROTC multiple unit. All Junior ROTC instructors and personnel employed by the school to support the Junior ROTC program will be directly under his or her supervision in all matters pertaining to program administrative duties and responsibilities. His or her primary responsibility is to ensure, on behalf of the school district and the Army, through proper instruction and supervision, that the Junior ROTC program is administered according to law, regulation, policy, and principles. The DAI relieves the SAI of as many administrative duties as practical.

b. The SAI is the chief instructor of the Junior ROTC unit. He or she performs the functions of a DAI in a single unit and is therefore responsible for the overall management of the Junior ROTC Program at the school.

c. The DAI and/or SAI will—

(1) Manage and conduct the Junior ROTC program according to school rules, regulations, and customs. He or she will advise school authorities of laws and regulations affecting the program.

(2) Maintain good relations with the school authorities, faculty, and student body.

(3) Conduct a public affairs program in the local area; among school and community officials, civic groups, parent-teacher groups, and other individuals or groups, designed to further the understanding of the Junior ROTC program, the school, and the Army.

(4) Enroll students in the JROTC program and support school officials conducting these programs.

(5) Ensure continuous evaluation of the program.

d. At Class HS schools, the DAI and/or SAI, in coordination with the senior school official, will establish procedures relating to the administration, control, and training of Junior ROTC cadets. These procedures will cover the appointment, promotion, and demotion of cadet officers and noncommissioned officers, and must be approved by the senior school official or school system according to this regulation.

e. Multiple unit DAI duties. The following are the specific responsibilities of the DAI. School systems having DAIs should provide the appropriate support to ensure these are accomplished:

(1) Manage and coordinate programs.

(2) Consolidate lesson plans and training schedules.

(3) Consolidate all logistical and supply procedures and functions.

(4) Consolidate and manage ammunition accounts.

(5) Draft plans, policies, and Standard Operating Procedures (SOPs) for all units (administrative function).

(6) Evaluate instructors in accordance with CG, USACC, guidance annually (performance).

(7) Conduct periodic evaluations of all training and instruction presented by SAIs/AIs.

(8) Conduct instruction as practicable.

(9) Initiate and conduct a public relations program with local civic groups in the community.

(10) Serve as the public affairs Officer for the multiple unit.

(11) Set up a training program for instructors to keep them abreast of new initiatives and educational innovations.

f. At Class MI, the SAI will establish the rules and orders relating to Junior ROTC instruction and training in coordination with the senior school official. The authority for direction, coordination, and control of the school’s Corps of Cadets may be vested in the Commandant of Cadets who will be designated by the head of the school. The Commandant may or may not be the SAI. The commandant is responsible to the head of the school for the health, welfare, morale, and discipline of all members of the corps. The organization of the school’s Corps of Cadets and its administration and control are joint responsibilities of the SAI and the Commandant, each having a special interest in those areas. The SAI and the Commandant will jointly draft the orders relating to the administration and control of the Corps including appointment, promotion, and demotion of cadet officers and noncommissioned officers. The head of the school must approve these orders according to this regulation.

4–11. Probationary status

a. Instructors will serve in a probationary status for the first academic year of employment. Notification to HQ,
USACC, by the school or supervising military authorities that the instructor is unsatisfactory will result in withdrawal of approval for employment at the school in Junior ROTC.

b. HQ, USACC, will determine whether the lack of qualifications or the circumstances that led to the termination of an unsatisfactory instructor in probationary status warrants withdrawal of JROTC instructor certification. Personnel will be given the opportunity to provide written information prior to such determination.

4–12. Instructor training
   a. CG, USACC, will conduct training programs for Junior ROTC instructors.
   b. Expenses related to travel and temporary lodgings may be paid by the Army.
   c. Excluding active duty personnel on travel orders (Joint Federal Travel Regulations, chapter 3, volume 2) may be used for this purpose.
   d. New instructors will be required to attend an initial orientation conducted by HQ, USACC, within 18 months of employment.

4–13. Professional development programs
   a. Individuals may request, or be requested, to participate in developmental programs. As a minimum, the following program opportunities may be pursued:
      (1) Army extension courses.
      (2) Attendance at resident Service school courses.
      (3) Professional refresher course.
      (4) Instructors’ seminars.
      (5) State, district, or school in-service and/or professional development courses.
   b. Participation in school or other educational development programs on an individual basis is encouraged. Instructors are expected to adhere to those requirements imposed on other institutional faculty members by principals or superintendents and should participate in in-service activities.
   c. DAIs/SAIs/AIs will attend annual Junior ROTC conferences.

4–14. Continuing qualifications
   a. Instructors must—
      (1) Meet the eligibility and qualification standards of paragraph 4–8.
      (2) Demonstrate a thorough knowledge of Junior ROTC subject matter, effective performance as an instructor, and the ability to function well as a member of the Junior ROTC cadre and the school staff. Attainment of these requirements may be reflected in the instructor’s annual performance appraisal or other records and reports.
      (3) Meet medical and fitness standards.
   b. For retention in a certified status, instructors must continue to meet the medical and fitness standards of AR 40–501, chapter 3. All Junior ROTC instructors will complete a standard Army physical and provide the results to the Junior ROTC Directorate, HQ, USACC (The examination may be conducted by civilian medical personnel.) every 5 years, for determination of fitness for continued employment. An examination, due at a 5-year point, need not be conducted if an examination has been conducted during the 5-year period preceding, Commanders may require additional physical examinations on a command-directed basis (such as for extended illnesses).
   c. Instructors will meet and maintain the following minimum standards of fitness for retention in the Junior ROTC program:
      (1) If an instructor exceeds the weight tables in AR 40–501, percent of body fat will be measured as prescribed in AR 600–9.
      (2) If the instructor exceeds this body fat percentage he or she will be entered into a weight control program under the provisions established by CG, USACC. Failure to successfully complete a weight control program will result in decertification.
      (3) All Junior ROTC instructors will obtain a 3/4 length photograph in Class A uniform every 5 years and forward it to the Junior ROTC Directorate, HQ, USACC.
   d. USACC may place personnel who fail to meet continuing qualifications in a probationary status to resolve shortcomings, or they may have their certification withdrawn.

4–15. Performance review and decertification
   a. The performance of instructors will be reviewed using instructor evaluation reports, unit visits, and inspections. Reviews will determine whether the instructors, individually and collectively, are effective and efficient in conducting instruction, unit operations, and Junior ROTC activities in accordance with this regulation and other directives.
   b. Instructors will be evaluated annually. Retired members will be evaluated in accordance with instructions provided by USACC. Active duty soldiers will be evaluated in accordance with appropriate regulations using standard Army efficiency reports.
c. If an instructor’s performance is unsatisfactory, he or she may be recommended by his or her school or military supervisory personnel for probationary status. This status is appropriate when the nature of the unsatisfactory performance is such that it is remediable through counseling, professional development, and other corrective measures within a year or less. Individuals placed on probation will be so notified by USACC and will be advised of the conditions required to resolve their probationary status. USACC will determine if the probationary status should be removed, based on subsequent recommendation by the individual’s school and military supervisors, or whether the instructor, if retired, should be decertified. Active duty instructors failing probationary status will be transferred or otherwise removed from duty in accordance with appropriate regulations.

d. Individuals whose unsatisfactory performance is of such a nature that it is unlikely to be resolved within a year or less, or is such that prompt removal is in the best interests of Junior ROTC, will be considered immediately for decertification and need not be placed on probationary status prior to decertification or, for active duty instructors, transfer or other action. Retirees will be given the opportunity to submit information for consideration before such action becomes final. Certification, and therefore decertification, is the responsibility of CG, USACC, or his or her designated representative, and does not depend on any relationship between retired instructors and their employing school districts.

e. One or more instructors at a unit may be placed in a probationary status when continuing unit viability problems (for example, low enrollment), poor inspection results, or other indicators of marginal or unsatisfactory unit performance are, in the judgment of school officials or military supervisors, attributable to one or more instructors.

4–16. Termination of employment and recertification

a. Termination of instructor employment, whether voluntary or involuntary, stops any Army cost-sharing of an instructor’s salary as of the effective date of termination. Instructors terminated by the school may submit to USACC reasons for disagreeing with the termination action.

b. Nothing precludes an instructor from terminating employment voluntarily at any time, other than restrictions that may be contained in the individual’s contract with the school. An instructor who terminates a Junior ROTC position remains eligible for reemployment in Junior ROTC as outlined in paragraph 4–9.

Section III
Instructor Pay

4–17. Authority and administrative regulations

a. Statutory authority for payment of Junior ROTC instructors is contained in Title 10, United States Code, Section 2031.

c. Schools are required to employ and pay retired personnel according to the provisions of this regulation.

4–18. Verification of participating schools

To verify that schools requesting payment are active participants in the Junior ROTC Program, USACC will maintain an authenticated copy of the counter-signed DA Form 3126 (Application and Contract for a Junior Reserve Officers’ Training Corps Unit). USACC will ensure pay reimbursement is discontinued when the school’s participation in the program ends.

4–19. Instructors’ pay

a. Pay is authorized for retired instructors employed by the school, whose qualifications are approved by the CG, USACC, in the amount that, when added to their retired pay will equal the amount of their active duty pay and allowances exclusive of hazardous duty pay. DOD Instruction 1205.13 and Enclosure 1 to 32 Code of Federal Regulations (CFR) Part 111.7, show examples of how the Junior ROTC instructor’s compensation pay is calculated. Active duty pay and allowances to be used in computing the pay of Junior ROTC instructors include—

(1) Basic pay.

(2) Basic Allowance for Housing (BAH) (includes Alaska and Hawaii) and any housing allowance authorized for post of assignment in Volume 1, JFTR (unless Government quarters are occupied).

(3) Cost of living allowance authorized for post of assignment in Volume 1, JFTR.

(4) Clothing maintenance for enlisted personnel.

(5) Basic allowance for subsistence.

b. Junior ROTC instructors are entitled to pay from the school or educational department for a minimum contract period of 10 and up to 12 months as negotiated by the Junior ROTC instructor and school officials. (Schools may negotiate contracts of less than 12 months; however, they will ensure year round management of the program and control of Government property.) Headquarters, Department of the Army, ensures adequate and timely availability of funds to meet Army contractual requirements for instructor salaries. Reimbursement will be made for not more than 30
days of leave per year, if included in the contract. The Army will not reimburse the school for any portion of extracurricular services for the school.

c. The Army will determine the minimum instructor pay for each hired instructor, however, schools may pay instructors more than the amount in paragraph a above and will, as a minimum, offer instructors the same benefits package received by teachers in a comparable status. The amount paid to the school by the Army is limited to that prescribed in paragraph d. below. USACC will furnish those figures to the schools upon request. USACC obtains information pertaining to retired pay from the Defense Finance and Accounting Service Center, Cleveland Center, (CODE RO), Cleveland, OH 44199–1126.

d. For each retired instructor reimbursable by the Secretary of the Army, and employed by the school 12 months each year, DA will pay to the school an amount equal to one-half the difference between the instructor’s retired pay and the amount of pay and allowances (excluding hazardous duty pay) the instructor would receive if ordered to active duty. For periods of service as a Junior ROTC instructor of less than 12 months, the instructor will be compensated the difference between the amount of the retired pay and active duty pay for the length of employment as a Junior ROTC instructor. This should be expressed as a fraction of 12 months. In districts that compensate instructors for less than 12 months or any period greater than the contract, the instructor’s salary will be cost-shared based on the number of contract months rather than the pay periods. All of the retired pay must be considered even though the member may have waived all or a portion of it to receive Veteran’s Administration disability compensation.

e. Schools will provide an employment contract (approved by the Army) for a Junior ROTC instructor for that part of the summer (or interim) months, between academic sessions, during which the instructor performs administrative or instructional duties that are directly related to the Junior ROTC Program. Administrative and instructional duties directly related to the Junior ROTC Program that would entitle a Junior ROTC instructor to compensation include, but are not limited to—

(1) Administrative and instructional duties performed in an interim term Junior ROTC program, such as summer school and camps.

(2) The preparation of new course materials during the period immediately before the beginning of a school year.

(3) The collection of uniforms, books, and supplies at the end of a school year.

f. Notwithstanding the limitations above in d, the Secretary of the Army may pay the institution more than one-half of the additional amount paid to the retired member by the institution if, as determined by the Secretary, the institution is in an educationally and economically deprived area, and the Secretary determines that such action is in the national interest. Payments by the Secretary concerned shall be made from funds appropriated for that purpose.

g. The provisions in e. above shall apply with respect to payments for periods of instructor service performed after September 20, 1993.

4–20. Salary deductions
The salary received by instructors is subject to the same deductions as all other wages in which an employer-employee relationship exists. Deductions for taxes, insurance, dues, fees, and similar items, are the responsibility of the school. Although an instructor may receive an amount "equal" to the military pay and allowances he or she would receive if on active duty, the payments he or she receives are not, in fact, military pay and allowances paid by the Army.

4–21. Longevity increases
All time ensuing after the retirement date is creditable in determining the amount of active duty pay and allowances. Increases in longevity will accrue during the period of the contract thereby creating periodic pay increases.

4–22. Advancement on retired list
a. Retired personnel employed as Junior ROTC instructors may, when advanced to a higher grade or rank on the retired list, be employed in this higher grade or rank if—

(1) They have the required qualifications for the higher grade or rank, and

(2) The authorized staffing limitation determined by CG, USACC, is not exceeded.

b. The Army will not reimburse the school for any additional pay and allowances based on the member’s advancement, unless the member’s retired entitlement changes.

4–23. Payments to schools or other educational departments
a. To obtain monetary allowances from the Army for payment of authorized instructors, the school must submit the Junior Reserve Officers’ Training Corps (Junior ROTC) Instructor Annual Certification and Pay Data (IACP&D) Form 45 days prior to the beginning of each school year for returning authorized instructors to USACC, Pay Operations Division. The IACP&D Form is available from the Pay Operations Division of Cadet Command. The IACP&D Form must be submitted for new hires within 35 days after hiring. Change in duties (no longer performing Junior ROTC duties), transfers, and resignations must be submitted immediately.
b. The IACP&D Form should be completed by the appropriate school finance or personnel representative and the instructor. All questions should be directed to the Pay Operations Division, USACC.

Chapter 5
Cadets/Students

Section I
General

5–1. Scope
The following sections prescribe policies and procedures for admission, enrollment, treatment, and participation of cadet/students in the Junior ROTC program.

5–2. Cadet/student administration
Cadet/student administration in the program must be consistent with the principles contained in chapter 1. The cadet/student is the focal point of the program, and his/her benefit is the basis for Army and institutional cooperation. Cadets will be treated with respect. Hazing and/or harassment of the cadets by instructor personnel or other cadets are prohibited.

5–3. Participation in Junior ROTC
a. Cadets will contribute to the operations of the Junior ROTC Program. They will have the opportunity to express their ideas concerning conduct of classes, grades, and discipline of cadets in corps matters. A cadet chain of command will be established and be made functional to the greatest extent possible.

b. Instructors will confer with school authorities prior to instituting major changes. The prerogatives of the institution and the Army will be respected.

5–4. Policy of nondiscrimination
a. School authorities must agree, as a condition for participation in the program, to adhere to a policy of nondiscrimination on the basis of race, religion, color, sex, or national origin with respect to admission or subsequent treatment of cadets/students and instructors.

b. An allegation that this policy is being violated is a matter initially within the purview of school authorities.

c. Substantiated charges of violation of this policy will be reported promptly to USACC. School authorities will be given a reasonable period of time to resolve violations. It is the responsibility of the school official, program instructor, or member of the program having knowledge of these charges, not a party to the violation, to make this report.

Section II
Enrollment and Attendance

5–5. Enrollment requirements
To be eligible for enrollment and continuance as a member of the Junior ROTC Program, each participant must meet the following requirements:

a. Education. The student must be enrolled in and attending full-time a regular course at an institution offering Junior ROTC instruction.

b. Grade. The student must be in a grade above the eighth grade during the school year of enrollment.

c. Academic standing. The student must maintain an acceptable standard of academic achievement and an academic standing that will merit his or her graduation on completion of all requirements.

d. Conduct and character. The student must maintain an acceptable standard of conduct and be of good moral character. The student must be honest and self-reliant and have a sense of personal and social responsibility in performing program and other academic assignments. The student must exhibit self-discipline and respect for constituted authority through observance of laws, rules, and regulations; by prompt and regular attendance at instruction; and in his or her general demeanor.

e. Physical condition. The student must be physically qualified to participate fully in the physical education program in the school. As an exception to this requirement, under the secondary school’s open enrollment policy and when desired by the principal of the host school, students who are ineligible for membership as regular Junior ROTC students may enroll as special Junior ROTC students. However, the school will provide any special equipment or additional instructors that may be needed to instruct such students.

f. Automated record. An automated record will be maintained for each cadet while attending JROTC and for a period of 5 years after leaving the program. (Paper back up copies are not required although back up disks will ensure
that the information is protected.) HQ Cadet Command will provide a cadet records program that will contain the format and description of the content that will be required.

g. Screening tests. The student will successfully complete such survey and screening tests as may be prescribed by the school or USACC.

5–6. Magnet programs

a. A student from another school may enroll in the program as a cadet at an institution conducting a Junior ROTC course if—
   (1) The student is enrolled in and attending, full-time, an accredited educational activity, to include home schooling, that does not have a Junior ROTC course.
   (2) The student meets the other prescribed enrollment requirements of paragraph 5–5.
   (3) The officials of the school district or parents consent and agree to transport cadets at no cost to the Government.
   (4) Magnet cadets will participate in formal inspections.

b. The intent of magnet programs is to permit students from other accredited educational activities to attend Junior ROTC at a host school.

5–7. Feeder schools

Instruction provided at feeder schools (ninth grade) is permitted; however, instruction transportation will be provided at no expense to the Government.

5–8. Cross-enrollment

a. Prior to 1997 in an effort to extend the benefits of Junior ROTC to as many students as possible, some programs were established as cross-enrolled units. Cross-enrollment provisions permit a few students whose school does not offer Junior ROTC to be transported within a district to a site where the instruction is available.

b. A Junior ROTC program consists of an officer, an NCO, facilities, curriculum, equipment, and a cadet battalion of 100 students, or 10 percent of the high school enrollment, whichever is less. The intent of this regulation is to move away from any instances where instruction is regularly presented offsite at other than the host institution.

c. The number of instructors for whom the Army will share costs is intended to be based on the number of students receiving instruction onsite at the host institution. Instructors employed at previously established cross-enrolled institutions may continue to be cost-shared dependent on the availability of funds.

d. The intent of this regulation is to phase out traditional cross-enrolled programs. Other than feeder schools, the only acceptable limited cross-enrollment situations are in schools that are consolidating or separating and enrollment is limited to the students who participated prior to the reorganization.

e. Options include converting to a host Junior ROTC unit, establishing an NDCC program, or ceasing instruction at the cross-enrolled site with students attending the host school in a magnet status.

5–9. Attendance

a. A student who is ineligible for enrollment as a cadet may be authorized to attend Junior ROTC instruction as a participating student if attendance is approved by the SAI and senior school official; however, only ninth graders and above will receive LET 1 instruction.

b. Students who were either denied enrollment or disenrolled (former Junior ROTC cadets) from the Junior ROTC program and have since corrected the problems or deficiencies, causing their non-acceptance or disenrollment, and who are otherwise qualified, may be enrolled in the Junior ROTC Program.

5–10. Disenrollment

At the discretion of the SAI, a cadet will be disenrolled or excluded from attendance, as appropriate.

a. In all cases, a cadet will be considered for disenrollment when he or she—
   (1) Withdraws from school.
   (2) Demonstrates ineptitude for leadership training indicated by a lack of general adaptability.
   (3) Fails to keep an acceptable standard of academic achievement, conduct, appearance, or attendance.
   (4) Exhibits undesirable character traits, such as—
      (a) Lying, cheating, or stealing.
      (b) Unauthorized possession or use of illegal drugs or substances.
      (c) Conviction or adjudication as a juvenile offender for committing an offense that could lead to imprisonment.
      (d) Frequent incidents of a discreditable nature with civil or school authorities or other similar acts.
   (5) Fails to maintain a requirement for enrollment.
   (6) Exhibits an indifference to and a lack of interest in leadership training as demonstrated by—
      (a) Frequent absences from class or drill.
      (b) Accumulation of a large number of demerits.
(c) An established pattern of shirking responsibility or other similar acts.
b. The provisions of the preceding subparagraph can be waived by the USACC chain of command.

Section III
Physical Fitness

5–11. General
Each cadet, with the exception of those noted in paragraph 5–5e above, will participate in the physical fitness program that is a part of the prescribed JROTC curriculum.

5–12. Responsibilities
   a. Applicants for enrollment in JROTC must give the DAI/SAI a certificate or statement of health signed by a physician, a parent, or a guardian.
   b. Keeping physically fit is the individual’s responsibility. The curriculum of JROTC is designed to give the cadets an appreciation of the value of physical and mental fitness. Extension of this curriculum to include standards of physical fitness and performance is a school matter with the standards to be prescribed by the host school.

Section IV
Senior ROTC Scholarships and Appointment to the Service Academies

5–13. Eligibility
This section pertains to the eligibility of Junior ROTC cadets for Army ROTC scholarships and appointments to the Service academies. General provisions governing Army ROTC scholarships are contained in AR 145–1 and other appropriate publications. Those provisions governing appointment to the Service academies are contained in the respective Service academy catalogs. See figure 5–1 for addresses for more information on Service commissioning programs.
5–14. Nominations to Service academies

a. Selected schools conducting Junior ROTC programs will be designated as an Honor Unit with Distinction under the provisions defined by CG, USACC. Schools achieving Honor Unit with Distinction (HUD) are authorized to nominate candidates for the designated ROTC appointments to the Service academies as outlined in the appropriate Service academy catalog.

b. The lack of this distinction does not preclude all other qualified cadets from being nominated for other Service academy appointments.

Chapter 6
Education and training

6–1. Objective

The primary objective of the Junior ROTC program is to develop tomorrow’s leaders through a comprehensive education and training program. All courses of instruction and training for Junior ROTC programs will be prescribed by the CG, USACC. Distance learning is the delivery of standardized individual, collective, and self-development training to cadets, soldiers, and units at the right place and right time through the application of multiple means and technology. As the Army’s architecture evolves, Junior ROTC training capabilities will reflect these advances. USACC will consider recommendations made by a Junior ROTC Advisory Panel and constructive comments properly presented with the objective of improving the program. All Junior ROTC activities, including camps, will support the mission and objectives of Junior ROTC and will be school sponsored activities. Once a cadet’s activities no longer fall under the umbrella of the JROTC program (to include extra curricular activities) whatever that cadet becomes involved in does not reflect upon the mission or the program.
6–2. Description
The program consists of a minimum of 3 years of leadership, encompassing up to eight credits, education and training with a minimum of 180 hours per year, or whatever hours are required by the school to constitute a credit hour. Schools will comply with the requirements in the POI. Class MI units will conduct a 4-year required program.

6–3. Development of programs
   a. CG, USACC, will—
      (1) Develop a Junior ROTC POI.
      (2) Ensure continuing course development.
   b. A Junior ROTC Advisory Panel, which meets annually to review current issues and problem areas pertaining to the Junior ROTC program, also provides guidance in ensuring that curriculum materials are relevant and academically challenging. Members of this panel must have an educational background and an interest in curriculum enhancements. Their link to emerging educational techniques and strategies and on-the-ground experience ensures curriculum revisions are acceptable to the schools and Junior ROTC instructors.
   c. Instructional activity must be relevant and adhere to the principles of paragraph 1–5. CG, USACC, may authorize schools to conduct limited experimentation. All classes will be open for inspection by authorized school officials and DA members associated with the Junior ROTC program. Parents and distinguished visitors may visit classes with the consent of school officials and the DAI/SAI.
   d. Leadership development is important and units will be organized to provide an understanding of current Army structure and increase leadership opportunities and responsibilities. Participants will maintain a proper state of discipline during the instruction.

6–4. Structure of courses
   a. Junior ROTC units will not be established or maintained at schools that do not administer the prescribed course of instruction. Schools must require that each participant in Junior ROTC courses devote the required number of hours to Junior ROTC instruction.
   b. The Junior ROTC course will be structured to provide—
      (1) A common core of instructional hours, required in all schools.
      (2) Credit hours for orientation, enrichment, and extension
   c. Elective instructional hours will provide sufficient latitude to adapt programs to local conditions, interests, and resources. The time spent on each aspect of the optional curriculum will be flexible. These hours may be used for those courses or extension of core courses as prescribed in the POI. Instructors should strive to gain core credit by enhancing aspects of the POI that lend themselves to meeting State and/or local requirements. This core credit is especially important in schools with six-period days or block scheduled programs where more than three or four credits are authorized.

6–5. Acceleration of courses
   a. The required hours of instruction may be redistributed throughout the academic year. The term ‘academic year’ as used in this paragraph will be defined for Junior ROTC courses on the same basis as the academic departments of the institution concerned. The institution may operate on an accelerated basis with regard to all or part of its students, allowing more than two semesters or three quarters of academic work to be completed in a calendar year. If so, students completing their academic work on an accelerated basis will be permitted to progress in their military course at the same rate, subject to the following conditions:
      (1) The arrangement is mutually acceptable to both the SAI and institutional authorities.
      (2) No reduction in the scope or content of the Junior ROTC course will be permitted.
   b. The Army has no objection to ‘honors courses’ which allow cadets who have completed LET 4, but have not yet graduated, to continue to participate in the program. Instructors will ensure that these cadets are productively engaged and are receiving accelerated leadership instruction.

6–6. Instructional material and equipment
   a. HQ, USACC, supervises the development and publication of instructional material for use in Junior ROTC education. Educational material will be reviewed by the Junior ROTC Advisory Panel to ensure that the latest doctrine, techniques, and general subject matter are included and the material presented will still have current value when the course is completed.
   b. Official reading materials, including textbooks, will be provided at no cost to participants authorized to receive Junior ROTC training. Curriculum material is generally provided via local school publication accounts established at the U.S. Army Publishing Agency-Distribution Operations Facility in St. Louis, MO.
   c. CG, USACC, is authorized to make available unofficial publications to supplement Junior ROTC education.
   d. Equipment, including that which is excess or surplus to the immediate needs of the Active Army, and is authorized in accordance with existing CTA guidance, may be issued for use in instructing Junior ROTC cadets.
Equipment may be obtained under the Defense Industrial Reserve Act, title 10, United States Code, section 2535 (10 USC 2535), which authorizes the lending of machine tools and other industrial equipment from the Defense Industrial Reserve (DIR) to qualified nonprofit educational institutions and training schools. Loan agreements require the borrower to pay the costs of shipping, installation, insurance, and maintenance, and to maintain the equipment within suitable defense production standards. Details concerning this program may be obtained directly from the Commander, Defense Industrial Plant Equipment Center, ATTN: Defense Industrial Reserve Loan Branch, Memphis, TN 38144–5000.

Loans and issues made under authority of this paragraph do not interfere with the SEA Donation Program in which educational activities of special interest to the Armed Forces may participate.

6–7. Presentation of instruction
a. The instructional activities and planned learning outcomes of the Junior ROTC programs will be in accordance with the principles contained in paragraph 1–5. The Program of Instruction (POI) outlines the curriculum and includes philosophies, concepts, and desired learning outcomes.

b. Presentation of instruction for participants will not be restricted to classrooms. Orientation visits to community and governmental facilities, including military installations, are encouraged.

c. DAIs/SAIs/AIs are representatives of the Army and members of the institutional staff. In this dual role, they are responsible to the institutional authorities and must adhere to the policies and procedures of the institution. Additionally, the DAI/SAI/Al must adhere to military regulations, directives, and policies, and represent the interests of the Army. Specific responsibilities of the DAI/SAI/AI are outlined in chapter 4. The DAI or SAI will consult with the senior school official and appropriate faculty members to ensure the conduct of a highly effective program.

d. The cadets should achieve an understanding of the broad areas of citizenship, communication, physical fitness (life skills and work skills) and leadership. In presenting the instruction, subjects will be integrated, when feasible, to show these relationships. Maximum use will be made of available educational aids and equipment. To the extent feasible, subjects will be presented by demonstration and application. Authentic assessments will be periodically performed. The lecture-type method of instruction will be kept to a minimum and student-centered instruction will be emphasized. The following guidelines will assist in the conduct of instruction:
   (1) Use small group instruction and participatory learning as the primary method of instruction.
   (2) Strive to teach every subject as a problem to analyze, not as material to memorize.
   (3) In presenting doctrine contained in manuals and other publications, strive to point out the ‘why’ as well as the ‘what’ and ‘how’ of the doctrine.
   (4) Encourage discussion.
   (5) Show the relationship and emphasize the importance of leadership as it relates to the subject.
   e. Use those techniques and methods that will provide maximum use of class time. Take advantage of individual student differences to produce an appreciation of each individual. Keep abreast of developments in educational methods, concepts, and techniques in TRADOC schools, civilian secondary schools, and industries.

f. The SAI counsels Junior ROTC cadets on matters pertaining to the Junior ROTC program. For personal problems that do not fall within this category, proper referral should be made to the appropriate institutional counseling offices or individuals. The DAI/SAI/AI should maintain liaison with the director of guidance and/or counseling services within the host institution.

g. Prior to the start of each school year, the DAI/SAI/AI, after consultation with proper institutional authorities, will forward to the appropriate USACC Commander, for approval, a training schedule in duplicate for each level of instruction for the next school year.

h. The DAI/SAI/AI will keep in readily accessible form, a copy of all instructional schedules, programs, assessments, and lesson plans. These records are necessary for reference to promote stability in the program, and are required for unit evaluations.

i. In situations where schools have instituted other than traditional scheduling, the Junior ROTC program will adjust to fit within those parameters as long as—
   (1) The course is not abbreviated from the requirements as outlined in the POI, including the number of elective or optional hours.
   (2) The SAI and the principal devise a plan whereby each cadet can participate in activities, service learning, and leadership responsibilities throughout the entire school year.

j. Instructors will work within schools, school districts, and State departments of education to gain equivalency credit for courses required for graduation.

6–8. Presentation of instruction by guest lecturers
Guest lecturers are authorized and encouraged when the invited speaker brings needed expertise on a given subject.

6–9. Support of middle school
a. Many middle school administrators have recognized the effectiveness of the Junior ROTC program and would
like to be offered assistance. With the permission and support of the school administration from both schools, an
instructor may—

(1) Serve as a consultant and adviser.
(2) Allow Junior ROTC cadets to act as mentors, tutors, drill instructors, and in similar roles.
(3) Lend curriculum materials provided by the Army.

b. Junior ROTC instructors may not divest resources such as uniforms and uniform items. Instructor time devoted to
middle school support must never be so extensive as to interfere with primary Junior ROTC duties and program
quality.

6–10. Physical fitness instruction and training
CG, USACC, will provide a program of physical fitness instructional activities. Cadet Command recognizes and
supports adventure training teams and competitions. These teams or competitions must not be named after active duty
organizations such as the Rangers.

6–11. Camps
a. USACC commanders are responsible for providing opportunities for Junior ROTC cadets, on a selective basis, to
attend summer encampments. These camps are basically organized to provide Junior ROTC cadets a chance to
experience living and interacting with their peers in a military setting while having fun.

b. USACC commanders will—

(1) Approve the camps before they start.
(2) Make every attempt to consolidate summer training for Junior ROTC cadets at supporting installations to prevent
fragmentation and will ensure that adequate support is available to provide a meaningful experience.
(3) Send a consolidated list of approved Junior ROTC camps to HQ, USACC, yearly.

c. Schools must decide which students participate in summer camps and—

(1) Obtain parental or guardian approval and release for each cadet/student participating, using the appropriate
USACC–approved form. Parents or guardians and the participant will be informed of the rigorous nature of this
activity.
(2) Ensure that authorized instructors conduct the camp and supervise and instruct the participants.
(3) Obtain insurance for each cadet/student in attendance. A group plan may be obtained if it provides benefits for
each individual concerned.

d. Junior ROTC encampment activities—

(1) Are generally conducted at military installations, national forests, national parks, or other similar locations for a
minimum period of 4 days. Maximum length of any camp is 2 weeks. Junior ROTC units are limited to one
encampment per unit per fiscal year.
(2) Serve as an orientation visit to a military installation. AR 60–20 permits Junior ROTC cadets access to post
exchanges under limited circumstances. Cadets visiting installations under competent orders as part of a service
orientation program, if occupying Government quarters on a military installation, are authorized exchange privileges
except for State tax-free items.
(3) May be conducted during any time of the year.

e. Requests for support of camps at U.S. Army Reserve (USAR) and Army National Guard (ARNG) installations
must identify training requirements 18 months in advance. These requirements should include facilities, cadre, equip-
ment, and so forth. This requirement for Junior ROTC camp support is submitted through HQ, USACC, to HQ,
TRADOC.

f. Junior ROTC cadets attending summer camps are authorized transportation, subsistence, billeting, and awards as
follows:

(1) Commercial transportation at Government expense for Junior ROTC encampments. The designated subordinate
headquarters must approve the request for commercial transportation.
(2) Subsistence at Government expense for Junior ROTC encampments.
(3) Contract billeting for Junior ROTC cadets at Junior ROTC encampments on a case-by-case basis. Requests to
pay for billeting must be approved by the designated subordinate headquarters.
(4) Trophies and/or other appropriate awards for competition results to recognize and encourage excellence in
performance at camps by Junior ROTC members. CG, USACC, and subordinate commanders are authorized to procure
and provide individual trophies and awards not exceeding $25 in value and team awards not exceeding $75 in value.

When a Junior ROTC camp is held at a military installation, the installation commander may authorize within his
or her mission capability the following:

(1) Limited Active Army support (tentage that may be used will be erected by cadets under proper supervision;
barracks, if used, will be ‘broom clean’ only, bedding may be provided but not made, and so forth).
(2) Essential shelter and use of facilities.
(3) Minimum equipment and supplies required to conduct instruction, under strict safety supervision and conditions.
(4) Routine sick call, field medical support, and emergency medical treatment. Inpatient and outpatient care is authorized for Junior ROTC cadets who are injured or become ill while attending summer camp. Individuals may also be given medical examinations and immunized when deemed necessary by the commander of the medical facility concerned. Cadets will be hospitalized only on a temporary basis until proper care arrangements can be made (AR 40–3).

(5) Purchase of comfort and maintenance items in exchange facilities. (Purchase of alcoholic beverages by or for consumption by Junior ROTC cadets while attending camps is prohibited.)

(6) Other minimum essential support, including transportation on the installation, which will not materially detract from readiness and efficient performance of primary mission.

(7) A parent/guardian visitation program.

h. For camps held at military installations or other locations including schools, the host or support installation may issue to Junior ROTC schools supplies that are necessary to establish and maintain a camp for military instruction of Junior ROTC cadets.

6–12. Marksmanship instruction and competition

a. Training programs for marksmanship instruction and competitions are optional but, when adopted by the school, will be conducted as prescribed in the POI. Precision air rifles are authorized for use in marksmanship training in lieu of .22 caliber rifles. Air rifle pellets and targets will be provided at Government expense from support installations.

b. CG, USACC, is authorized to procure and provide trophies and/or other appropriate awards for competitive results to recognize and encourage excellence in higher level marksmanship competitions by Junior ROTC members sponsored by Cadet Command. Individual awards will not exceed $75 in value and group awards will not exceed $250 in value.

c. CG, USACC, has the authority to authorize transportation, subsistence, and billeting for Junior ROTC cadets who attend command-sponsored marksmanship and/or drill competitions.

6–13. Drill instruction and competition

a. Training programs for drill and ceremony instruction and competitions will be conducted as prescribed in the POI. The Government will furnish each Junior ROTC unit demilitarized M-1 Garands and/or the M-1903s for drill and ceremonial purposes.

b. CG, USACC, is authorized to procure and provide trophies and/or other appropriate awards to recognize and encourage excellence in brigade or higher level drill competitions by Junior ROTC members. Individual awards will not exceed $75 in value and group awards will not exceed $250 in value.

c. CG, USACC, has the authority to authorize transportation, subsistence, and billeting for Junior ROTC cadets who attend command-sponsored drill competitions.

6–14. Safety

In addition to any applicable safety assessments/planning required by schools, the CG, USACC, through subordinate commanders and Junior ROTC instructors, will institute and enforce the five-step risk management process in planning and executing all Junior ROTC training activities. The sequence is as follows:

a. Identify risks. This includes hazards inherent in training activities (such as water activities, drill and ceremonies, rappelling, and so forth) and hazards from other factors, such as weather, cadet fatigue, and so forth.

b. Assess risks. This has two sub-steps:

   (1) Determine the worst injury possible and the likelihood it could occur, for each activity. (For instance, a fall from a 34-foot tower could result in death. If rappelling were not properly supervised, or equipment was not inspected or the tower was slick from ice, the likelihood of a fall would increase.)

   (2) Minimize the hazard through control measures. (In rappelling, the solution is to ensure that proper supervision, safe equipment, and good conditions prevail. This reduces the chance of a fall, thus greatly reducing the overall risk.)

c. Make a risk decision. Is the training benefit worth the risk after control measures are implemented? In Junior ROTC, no activity should be undertaken if there is a greater than moderate risk. (For instance, whenever rappelling training is conducted, there is always some possibility of serious injury. However, proper training, facilities, and supervision reduce this possibility to near-zero.)

d. Implement controls. Put all control measures identified in the assessment step into effect.

e. Supervise. Ensure control measures are enforced. This step requires continuous vigilance and dedication. The most comprehensive control measures are meaningless if they are not executed.

6–15. Transfer of cadets

a. Transfer of cadets between Army Junior ROTC units and Navy, Air Force, and Marine Corps Junior ROTC units is authorized and full credit may be given for training satisfactorily completed. LET year placement and cadet rank are at the discretion of the SAI.
When cadets transfer to another Junior ROTC unit, a copy of their complete records, to include supporting documentation, will be forwarded to the gaining SAI.

6–16. Certificates

a. Each student who satisfactorily completes at least 1 year of a Junior ROTC course will be given a certificate, DA Form 134 (Military Training Certificate-Reserve Officers’ Training Corps), when the student leaves the school. The form will be signed and annotated to indicate the type of course and total number of years successfully completed. This certificate, authenticated by the SAI, may be used as proof of completion of training. Cadet/student records will be annotated with the hours and type of instruction received and/or competencies demonstrated and date certificate was issued. Records will be maintained for a period of 5 years.

b. The SAI will provide his or her recommendation for enrollment in the Senior ROTC Program or enlistment, if warranted.

6–17. Placement in the Senior ROTC Program

a. Former Junior ROTC students are entitled to placement credit toward completion of Senior ROTC courses as may be determined by the institution Professor of Military Science (PMS). The DAI/SAI will send a copy of the certificate and his or her recommendation to the PMS at the school the student will attend if requested. The SAI will record this recommendation on the cadet/student record.

b. DA has established the following placement credit for satisfactory completion of Junior ROTC instruction (table 6–1).

c. Examinations for placement (oral, practical, or written) may be used at the discretion of the PMS.

d. Placement credit may be granted for substantially equivalent instruction. Placement authority will not be exercised indiscriminately. The PMS will counsel each cadet concerning the advantages and disadvantages of placement credit, and each cadet will be judged individually so that the best interests of both the cadet and the Service may be served.

e. If placement credit is not granted, the PMS will take the experience of the Junior ROTC cadet into consideration when assigning leadership positions.

f. Academic credit for prior military education and training is a school matter.

6–18. Enlisted grade authorization

a. A Junior ROTC cadet may qualify for the following grade status of enlistment in a Regular or Reserve Component of the Army and the Army National Guard.

1. The grade of Private (E2) if member has successfully completed one year of a prescribed Junior ROTC course.

2. The grade of Private First Class (E3) if member has successfully completed a minimum of 3 years, is otherwise qualified and recommended by the SAI; if determined not entitled to grade Private First Class (E3), then to grade Private (E2) minimum.

b. Junior ROTC cadets who have completed a 3 or 4 year Junior ROTC course qualify for grade of Private (E2), as a minimum, on enlistment in an Active or Reserve Component of the Armed Forces other than Army. (Refer to DOD Instruction 1205.13, AR 601–210, or 32 CFR Part 111.5 for certification of enlistment credit.)

c. DA Form 134 or 254 must be presented by the member to support a higher enlistment pay grade. If the forms are missing at the time of entry on active duty but are presented to the personnel officer some time after entry on active duty, administrative data will be adjusted accordingly.
Chapter 7
Uniforms and insignia

7–1. General
a. CG, USACC, will provide information concerning provisions of statutes and regulations. The Institute of Heraldry (TIOH), U.S. Army, 9325 Gunston Road, Ft. Belvoir, VA 22060–5579, provides guidance regarding designs and procurement of heraldic items. TIOH grants final approval regarding uniforms and insignia associated with Junior ROTC programs.
b. HQDA provides uniforms and associated items for Junior ROTC cadets. Uniforms and associated items for NDCC cadets are procured at no expense to the Government. TIOH, USA, will help design items not furnished by the Government. The school pays for the design, procurement, and manufacture of these items.
c. Statutory provisions of title 10, USC, section 773; Title 18, USC, Section 703; and Title 18, USC, Section 704 outline the policy on distinctive insignia, medals, and decorations.

The operating policies and procedures concerning the supply of issue uniforms to schools are outlined in AR 700–84.

   (1) To deserving individuals.
   (2) Promptly.

b. Army medals may be engraved at Government expense, in a reasonable period of time, by the U.S. Army Support Office, SSCPM–ARSOS, PO Box 13460, Philadelphia, PA 19145–3460. The expense of maintaining decorations, medals, badges, ribbons, and similar items will be borne by the cadet or student. Replacement of Army decorations and awards is authorized if the request includes a statement that the item was lost, damaged, or destroyed through no fault or neglect of the individual.

c. Decorations and awards issued by DA for presentation to individuals may not be retained by schools without written permission of the individual concerned. These items, together with the complete name and last-known address...
of the intended recipient, will be sent to Commander, PERSCOM, 200 Stovall Street, Alexandria, VA 22332, if undeliverable.

d. Only the awards, decorations, and badges prescribed in this regulation, or approved by TIOH, will be worn by Junior ROTC cadets on the uniform prescribed for wear in the Junior ROTC program at their institution. Other awards and decorations, subject to law and regulation, may be accepted by cadets and students, but will not be worn on the prescribed uniform. Medals for which a ribbon device is provided may not be worn on a Junior ROTC uniform when other ribbons are worn. In the case of multiple units, selection boards may be convened by the Director of Army Instruction (DAI) with the concurrence of the head of the school system concerned. Composition of the board will be as prescribed in this regulation except that the DAI will be president of the board and the Senior Army Instructor (SAI) of each school concerned or the individual whom the SAI designates will be a member of the multiple-unit selection board.

8–2. Recommendation for awards
Any individual with personal knowledge of an act, achievement, or service believed to warrant the award of a decoration should submit a recommendation for consideration.

8–3. Civilians
No part of this regulation, subject to law and other regulations, will be interpreted to preclude the privilege of civilians, who are entitled to awards, to wear them as may be prescribed by law and regulation.

8–4. U.S. and foreign awards
Awards, including decorations, medals, badges, ribbons, and appurtenances of the United States and foreign nations as prescribed in AR 600–8–22, are authorized for wear by those to whom they have been or are awarded. Such awards may be worn, under these circumstances, on issue or cadet-type uniforms prescribed for wear in Junior ROTC programs. They will be worn as prescribed in AR 600–8–22. The SAI will obtain a certified record of the award and authority concerned for each individual wearing such awards in the program at his or her institution.
