National Raider Challenge Overview

Be All You Can Be

Event Overview

A world class event showcasing the Fort Knox Community and Army Enterprise to high school JROTC Cadets, families, and spectators. Attendees will be exposed daily to National recruiting assets and capability displays. The robust display will tell the Army Story to attending JROTC Cadets, Coaches, and Family throughout the weekend and present a variety of opportunities to serve. USACC and USAREC will join to maximize opportunities during the event, kickstarting the FY25 recruiting effort.

Competing Team Division

**Army Challenge
(5 events)**

Physical Team Test, Cross Country Rescue,
Gauntlet, 5K Run, & Rope Bridge

**All-Service
(6 Events)**

All above + Ultimate Raider

**Army Master
(7 Events)**

All above + Battle Fit Challenge (1-1-1)

Events Summary: All Teams will compete in five (5) events (Physical Team Test, Cross Country Rescue, Gauntlet, 5K run, and Rope Bridge) Masters and All Service Division will also conduct the Ultimate Raider. Master's Division is the only division required to compete in the Battle Fit Challenge. This event is optional for Cadets in the other two divisions. Events are conducted at two site locations (1-Mile Track & Saunders Springs). Continuous bus movements will transport Teams, Cadre, & Spectators between locations.

Three Team Divisions:

- Army Challenge
- Army Master
- All-Service
- Ultimate Raider Team (Buddy teams of the top 5 teams in each sub-category of Master/All-Service (M, F, & MXD))
- Each Team category must complete 5x Independent Lanes (Obstacle Courses, 5K Run, Battle Fit Challenge & Rope Bridge)
- Team compositions can be Male, Female & Mixed Gender
- Teams consist of a Maximum 14 Persons, only 10 persons will participate in each event
- Schools can enter as many teams in each category as they have participants to fill the teams. Participants can only be on one team
- Schools that trophied in the Challenge Division in previous year are no longer eligible to compete in the Challenge Division (Registration Screening)

Battle Fit Challenge

Be All You Can Be

Execution

The Battle Fit Challenge will be conducted with 20 lanes. One grader for each lane and 20x Competitors executing simultaneously. Competitors will execute as a Team and will remain in that team throughout the event. The competition will begin with each individual completing 1 minute of push-ups. When all are complete competitors will move to the sit-up bars. Competitors will have 10 minutes between the execution of each exercise. The competitors will then execute 1 minute of sit-ups. At the competition of both push-ups and sit-ups, competitors will move to the 1-mile track for a 1-mile run. All competitors will complete a given event before commencing the next event. This flow will be controlled by the Event OIC. When all competitors have complete the 3x exercises, score sheets will be tallied by the event NCOIC. Team scores will be an aggregate of the 10 members and will be calculated into the overall competition scores for the National Raider Challenge Competition.

- Individual Scores will be kept for record and used for scholarship application.
- Optional for Challenge and All-Service Divisions (Scores not calculated into competition scoring).
- Mandatory for all members of Masters Division Teams.

Physical Team Test

Be All You Can Be

Execution

All team members must go through the tunnel crawl. The Water Cans and Ammo Cans will then be picked up from their designated area and returned placing them upright. All team members will go over the 40" vault. All team members then run in a column through the narrow Agility Maze. All team members run forward to the staggered tires where every team member attempts to place a single foot in each tire hole and continues running forward. A 250lb. weighted drag is then moved from behind a line on the ground around a circle and placed back at the original starting line. The team then proceeds to where there will be a large tire to flip within a 10-yard box. The team will decide how many and which team members to devote to flipping the tire. The team will sprint together to the finish line.

Cross Country Rescue

Be All You Can Be

Execution

On the command, "GO," teams run with 6 x 35lbs rucks to go over an 8' wall with all team members. After completing the wall, the team will pick-up a simulated casualty located directly next to the wall in a pre-designated area. Male teams will use a litter marked "M" (130lbs.). Mixed and Female teams will use litters marked "F" (100lbs.). The team will then run to a 40' long water/mud pit. The team will negotiate the pit with litter and rucksacks. Once the team completes the pit they continue along the marked trail. Along the trail the team will encounter a series of over and over obstacles. These are 4' wide with the over obstacles 40" high and the second over obstacles are 24" high. The team will go over the gates with their litter and rucks. After the over/over obstacles, the team will move to the finish line with rucks and litter. Once the last person crosses the finish line with all gear having crossed the line, the time will stop and be recorded. The team will then move into a testing tent to complete a 10-question, multiple choice medical skills test as a team. All wrong answers will serve as a time penalty.

1 Rope Bridge

Be All You Can Be

Execution

Upon arrival at the Start Point, the team will check-in with the event OIC. When told, the team will ready their rope. On the command GO, the clock will start, and all team members will run forward roughly 20 yards from the starting line to the near side anchor point and begin building their 1-rope bridge. The team will then cross the river as outlined in the Raider Challenge SOP. Time runs until the entire team and all equipment are out of the water, across the river and on the far bank (to include the rope, bag (if used) carabineers), all knots and all snap-links are out of the rope. The team will then announce in a loud voice, "TIME!"

- Teams will be given a maximum of 8 minutes on the lane for execution.

Raider Gauntlet

Be All You Can Be

Execution

The Raider Gauntlet is a 1 mile course that is executed over rolling terrain with 11 obstacles along the route. On the command of "GO" Teams will move to a 12' high wall where all teams will attempt to go over the wall. Teamwork is necessary to safely complete this obstacle. Teams will then move to the 8' wall and execute similarly to the previous wall. Teams continue to a 3.5' square window obstacle that all team members must go through. The following obstacle will be two, 30' long, 30" diameter culverts that all team members must go through. Teams will continue the course to a series of over and under gates. All team members will go over the 4-foot wide 40" high obstacles and under the 4-foot wide 24" obstacles. The next obstacle is a Suspended 23" diameter radial tire obstacle that all team members must go through. Teams continue along the dry creek bed to scale the 9' high creek bank by cargo net. After the long climb through unforgiving terrain, team will negotiate a set of horizontal ladder. Teams continue to the low crawl obstacle that all team members will be required to execute. Teams continue the course to a second set of 30' long, 30" diameter culverts in a "L Shape" that all team members must go through. The final obstacle on the course is a 7' ramp wall with ropes that all team members must negotiate. Upon completion of the final obstacle, the team will cross the finish line with time stopping when the last Cadet crosses. Latter starting teams may pass the earlier starting teams on the course should they catch up to them.

5K Run

Be All You Can Be

Execution

The 5K Run is a 3.1 Mile team run on a route through rolling terrain in the Saunders Springs area. This is a team run with no gear required to carry on the course. The route is on a marked path through woods that goes through varying terrain. At points, the path can be narrow, necessitating a single file movement formation. Teams need to be careful due to uneven and rocky areas. The team will start together, run together and finish together while on the course. Each team must cross the finish line with all team members inside a 10-yard box at the finish. Teams that fail to finish with all members will be disqualified. Teams may not carry or otherwise fully support a Cadet on the course however, teams can help a struggling or injured team member. Cadets will run the course in OCP and boots. Due to the vegetation on the route and the narrow path, wearing ACU shirts will help protect against scratches and cuts, but it is the team's choice. Teams will carry water bottles or canteens during the run. Water points will also be staged throughout the course at designated checkpoints.

Ultimate Raider

Be All You Can Be

Execution

Buddy teams from the top 5 teams overall from the Male, Mixed, and Female Sub-Divisions from the Masters and All-Service Divisions will be selected to compete in the Ultimate Raider (30 total teams). The Ultimate Raider results will be tabulated into the competing teams overall scoring totals. Leg #1 of the timed race is a run that is 800m in length. At this elevated point, the teams navigate a 14-station obstacle course to which each team member must traverse each obstacle. At the completion of the final obstacle, the time will stop for the team, and they will move to a nearby staging area to stage for the completion of the course.

Leg #2 of the timed race will consist of all of teams executing a 2-mile run to Brooks Field. At CP#8, Cadre will direct teams to Gammon Fitness Center where they will complete a 25 yard swim prior to continuing the run.

For each team, the Leg #1 time and the Leg #2 time will be added together to yield the total Ultimate Raider time. This event will be weighted at a 1.5 IOT all teams to improve their overall positioning in the competition. These placement scores will be added to the other five events for All-Service and six events for Masters to determine the final scoring for the overall top finishers in their division.
